

ALPHA 712

7.1" Cortex A8 LCD Computer Module
PRODUCT INFORMATION

ALPHA 712 - For the Engineers

ALPHA 712 - The Headlines

- ▶ 7.1" TFT touch screen LCD with 800 x 480 Resolution
- ▶ Low power consumption
- ▶ Attractive but rugged machined aluminium front panel
- ▶ Front panel overlay allows customisation at low cost
- ▶ Fanless cooling so high reliability and quiet operation
- ▶ Wide input power range from 7 to 36 volts DC simplifies installation and reduces cost
- ▶ Available with Microsoft Windows CE 6.0 R3 or Ubuntu Linux Operating Systems
- ▶ Customisable splash screen allows easy branding (CE)
- ▶ Powerful onboard configuration tools (CE)
- ▶ Mounting options include Dry Wall, Panel & VESA
- ▶ 1GHz Cortex A8 ARM RISC Processor
- ▶ 256MB SDRAM memory, 512MB Flash, MicroSD Socket
- ▶ 10/100 Mbit LAN
- ▶ Dual external USB 2.0 & 1.1 Host Ports, Dual internal USB 2.0 & 1.1 Host Ports, single external USB Device Port
- ▶ Dual RS232 Serial Port one of which can be a RS422/RS485 Serial Port if required
- ▶ Optional three composite video capture inputs
- ▶ 12 General purpose IO signals, Audio Line In and Out
- ▶ Real Time Clock with separate battery
- ▶ Designed, Manufactured and Technically supported in the UK

ALPHA 712 - In a few words

Designed and manufactured at Blue Chip Technology's facility in the heart of the UK the Alpha 712 is a reliable compact solution to a wide range of touch screen applications. Consuming approximately than 5 watts the Alpha 712 delivers an impressive array of technology in a very compact unit. The machined aluminium front panel not only conveys quality but also is extremely rugged which allows a wide range of mounting options.

The Alpha 712 can be supplied with either Microsoft Windows CE or Linux operating systems and is the ideal platform to swiftly develop your new touch screen application.

If your installation requires a low cost, compact, touch screen platform with great support and reliability - the Alpha 712 is the answer.

ALPHA 712

7.1" Cortex A8 LCD Computer Module PRODUCT INFORMATION

Processors & Memory

- ▶ Processors
 - Device Cortex A8 ARM RISC
 - CPU Cores 1
 - Speed 1GHz
 - Data Width 32 bit
- ▶ Memory
 - Technology LPDDR
 - Channel Width 32bits
 - Capacities 256MB

Display

- ▶ Resolutions 800 x 480 pixels
- ▶ Technology a-Si TFT
- ▶ Touch Screen 4 wire Resistive
- ▶ Active Area (Wx H) 152.4 x 91.44mm
- ▶ Pixel Size (W x H) 0.1905 x 0.1905 mm
- ▶ Colour Depth 18 bit
- ▶ Interface 18 bit RGB
- ▶ Viewing Direction 6 o'clock
- ▶ Surface Hardness 3H
- ▶ Input Mode Stylus or Finger
- ▶ Operating Force 80g
- ▶ Contrast Ratio 1000 typical
- ▶ Brightness 400 cd/m²
- ▶ HDMI Disables LCD display

Communications

- ▶ 10/100 Mbit LAN
- ▶ Two USB 2.0/1.1 external Host Ports, Two USB 2.0/1.1 internal Host Ports
- ▶ Single USB external Device Host Port
- ▶ Two RS232 ports, one RS422/485 port
- ▶ Wi-Fi 802.11 b/g and Bluetooth
- ▶ Optional CM-1 provides GPS, GSM, 2G Modem and accelerometer.

Storage

- ▶ Onboard 512MB NAND Flash
- ▶ MicroSD Socket - HC compatible (up to 32GB)

Expansion and General Interfacing

- ▶ 12 General Purpose IO signals - internal
- ▶ Optional video capture (Windows CE only)
 - Three composite video inputs or
 - one input component video capture module

Operating System Support *

- ▶ Microsoft Windows CE 6.0 R3 & EC7
- ▶ Linux Ubuntu 12.04 LTS
- ▶ Android *

Environmental/Mechanical

- ▶ Operating Temperatures
 - Standard 0°C to 50°C
 - Extended -20°C to 70°C
- ▶ Humidity 10% to 85% non-condensing
- ▶ EMC EN55022 (A), EN55024
- ▶ Safety EN60950

Power

- ▶ Input Voltage 7 to 36 Volts DC
- ▶ Power Consumption Approximately 5 Watts
